

# Physical Security Management

*In preparation for the ASIS PSP certification*

29 Oct– 2 Nov 2007  
Pre-course study &  
residential course

**\*£2300 plus VAT  
(currently 17.5%)**

This **complete learning package** combines pre-course work and a residential course. It is designed to maximise delegate learning and provide an in-depth view of the processes and equipment involved in the protection of assets and operations by physical and technological means.

It aims to prepare delegates for the **ASIS International PSP (Physical Security Professional)** examination. This internationally recognised certification provides proof of the holder's knowledge of physical security measures and enhances their in-company credibility and career prospects.

## **The Package Includes:**

- Five major reference works on physical security
- Pre-course study tasks, learning support and testing, preceding the residential training course.
- A five-day intensive and interactive residential course designed to explain, consolidate and discuss the subjects and to test delegate knowledge

## **Subjects Covered Include:**

- Assessment of risk
- Physical security survey
- Using risk analysis to develop countermeasures
- Selecting physical security measures
- Cost analysis
- Outlining, documenting and presenting proposals
- Implementation of solutions
- Acceptance testing and monitoring

**Further details of the subject matter can be found overleaf.**

## **The PSP Certification Exam**

The PSP exam is conducted by ASIS International - details can be found on their web site: [www.asisonline.org](http://www.asisonline.org). Prospective candidates are responsible for checking their eligibility to sit the examination and for registering direct with ASIS International in the United States. The examination fee is not included in this study package.

**Course dates:** 29 October – 2 November 2007 (Examination – 3 November)

**Fees:** £2300 plus VAT (package price includes reference books, pre-course work, five day course and six nights full board accommodation)

**NB: \*There is a special price to ASIS Region 25 members (includes UK Chapter 208) – ask for details.**

*As the minimum recommended study time is four months, we advise delegates to subscribe to this package by 30 June.*

Fax: +968 24540420

## **Subject Details**

### **Physical Security Assessment**

- Identifying assets to determine their value and criticality
- Assessing the nature of the threats so that the scope of the problem can be determined
- Conducting a physical security survey in order to identify the vulnerabilities of the organisation
- Performing a risk analysis so that appropriate countermeasures can be developed

### **Selection of Integrated Physical Security Measures**

- Identifying measures/components to match the requirements of the appropriate solution/recommendation
- Performing cost analysis of the proposed integrated measures to ensure efficiency of implementation/operation
- Outlining/documenting recommendations with relevant reasons for presentation to facility so that appropriate choices can be made

### **Implementation of Physical Security Measures**

- Outlining criteria for pre-bid meetings to ensure comprehensiveness and appropriateness of implementations
- Procuring systems and implementing recommended solutions to solve identified problems
- Conducting final acceptance testing and implementing/providing procedures for ongoing monitoring and evaluation of the measures
