Advanced Concepts in Security Management

In preparation for the ASIS CPP® certification

This two and a half week course focuses on advanced concepts in security management and is designed to prepare candidates for the ASIS CPP Certification examination. The course includes all necessary books and training materials.

In order to succeed on this programme, delegates should be at an advanced stage in security management, and have fast reading skills in English. In order to sit the examination, delegates will need to evidence nine years in security management (if they have a degree), at least three of which must be in responsible charge of security function.

Content:

- Security Risk Analysis
- Security Management
- Security Personnel Management
- Business Principles
- Protecting at Risk Personnel
- Crime and Managing Internal Crime
- Background Screening and Integrity Testing
- Perimeter Security (Physical, Intrusion Detection and Lighting)
- Premises Security (Physical, Intrusion Detection, CCTV and Access Control)
- Special Storage Areas (Safe and Vaults)
- Emergency Management
- IT Security
- Protection of Sensitive Information
- Managing Investigations and Interviewing

IMPORTANT - Applying for the CPP Certification Exam

The CPP examination is conducted by ASIS International and is computer-based at a number of Prometric test centres around UK and globally. Prospective candidates are responsible for checking their eligibility to sit the examination and for registering direct with ASIS International in the United States. **Applications to sit the examination, which costs \$300 for ASIS members and \$450 for non-members should be made direct to ASIS International via the ASIS website**

Further details of the subject matter, examination entry criteria, exam application form and Prometric test centres can be found on the ASIS website:

<http://www.asisonline.org/certification/cpp/cpphow.xml>

Confirming eligibility and registration for the exam is the candidate's responsibility.

**Non-residential course fees on request*
