

SECURITY MANAGEMENT RESEARCH

Location: Thames Valley, UK

27 February – 2 March 2012
16-20 July 2012

£1995* plus VAT
Includes 5 nights full board
accommodation

Intended for:

Delegates undertaking the ARC university-accredited courses and studying towards the **MSc Professional Practice in Corporate Security Management**.

NOTE: The 27 February – 2 March course is specifically intended for delegates who have attended ARC university-accredited courses before October 2011, and are thus required to meet the University registration deadline of May 2012 in order to be eligible to undertake the MSc Professional Practice in Security Management programme.

Eligibility Requirements:

Have attended the ARC Security Management Stage 1 Course, or higher.

Overview:

For students studying towards the MSc Professional Practice in Corporate Security Management, often one of the most difficult challenges is researching and writing the Post-Course Essay. This very practical course is designed to coach students through this essential MSC pre-requisite.

Delegates will have access to a comprehensive library of security management resources and will learn how to research a security topic relevant to their workplace and how to present the research in the form of an academic essay. A key underlying objective is that the research will have direct benefit to delegates' respective workplaces.

The objective is to ensure that each delegate, by the end of the course, has researched a security issue of direct relevance to his/her workplace, and, under instruction and coaching, has produced a 2,000-word academic essay to MSc standard.
